**DISCLAIMER**  
This drawing is intended for reference and illustrative purposes only. It is not a legally recorded map nor a survey and is not intended to be used as such. The information displayed is from a compilation of records, information, and data developed and obtained from various sources. The data layers were created from different sources of different scales, and the actual relative geographic position of any feature is only as accurate as the source information. If discrepancies are found, please contact the Columbia County GIS Office at (717) 387-4930.  
Planometric and geographic data were compiled photographically to National Aerial Photography Stereo pairs for 1:2500 and 1:100 scale mapping using first order fully analytical digital stereoplotters from aerial photography dated April 1965. The mapings were controlled arithmetically from ground points captured using first order global positioning systems (GPS). Geographic coordinates were based on the North American Datum 1983.
